Polymer Resources Diverse Business Development Program

Polymer Resources has adopted a corporate policy to promote supplier diversity. The company feels it is critical to our continued success to work with minority owned businesses and promote supplier diversity. PRL has designated that the Purchasing Manager will also be the corporate Supplier Diversity Coordinator. The responsibilities of this Coordinator will include identifying diverse businesses (as recognized by the US SBA), and providing such businesses with preferential opportunities to supply PRL.

Guidelines

The Supplier Diversity Coordinator will be responsible for measuring economic activity with diverse suppliers and increase the use of diverse suppliers by at least 1 percent each year.

The Supplier Diversity Coordinator will also be responsible to produce a report and share with customers the performance of the supplier diversity initiative.

Polymer Resources does not practice discrimination.

Polymer Resources will determine if any current suppliers could be recognized as Diverse.

Polymer Resources is committed to working with diverse businesses. A diverse business is defined as a company that is at least 51 percent owned, managed and controlled by one or more minority persons or persons from historically underutilized population groups, or non-minority women, or a small business that conforms to guidelines established by the United States Small Business Administration. The designation of historically underutilized population group is based on local country definitions outside the United States.
