In a Time of Need...

In a state that's been hard hit by COVID-19, the disease caused by the novel Coronavirus, our very own account manager, Tim Mulcahy, in Michigan, delivers the Polymer Resources promise to the medical device industry: Priority orders and express service.

World Magnetics, in Traverse City, MI has been a Polymer Resources customer for over 10 years. A producer of low and high pressure, vacuum and differential switches, World Magnetics was tasked with a rush order of 16,000 units in order to supply critical components for ventilators during the COVID-19 pandemic. Being unable to delay or risk kinks in the supply chain or material performance, Polymer Resources jumped into action placing the required compounded Polycarbonate, used to injection mold the switches, directly on the production line. Not only was the bulk order done within days, but it was shipped and placed into the molds quickly.

In a time of need, this is a perfect paradigm of two well-oiled companies working together to support a cause much larger than the sum of their parts. Polymer Resources was happy to support in a time of need!

---

### **About Polymer Resources**

Headquartered in Farmington, Conn., Polymer Resources is a leading, privately owned U.S. supplier of high-quality customized specialty engineering resin compounds, color-matching services and related materials technology solutions for the electrical, medical, consumer goods, business equipment and automotive industries. Operating with an extensive list of UL approved products, it is one of very few polymer suppliers that backs its compounding and color match services with a quality guarantee. The company's commitment to customer service, financial discipline, and foresight for over 42 years has made it a reliably steady resource for specialty compounds in the often-volatile plastics industry. With operations in Farmington and Rochester, N.Y., Polymer Resources continues to fuel its growth through ongoing investments in its manufacturing assets and its top industry talent. The company's direct sales force and local warehousing throughout the United States enable on-time delivery and fast, local customer service anywhere in the country.
